Dear Representative Schmick:

We are very concerned about proposed cuts to the Department of Ecology's Coordinated Prevention Grant Program (CPG) in both the House and Senate budgets. The proposed budget cuts of almost 50% from the 2013-2015 biennium to the 2015-2017 biennium (from \$30,000,000 to \$15,000,000) will reduce services to your constituents, increase human hazards, and likely result in costly instances of improper hazardous waste disposal.

Franklin County's CPG funds help ensure our 86,000 residents properly manage and dispose of recyclables and hazardous waste materials. CPG funds support collection and disposal of used motor oil, solvents, oil-based paints, batteries, household cleaners, pesticides and many other hard to recycle materials.

We offer collection and disposal services for all residents county-wide on the premise that a single instance of hazardous waste environmental contamination could easily cost us all far more than our entire annual CPG expenditure.

We urge you to restore funding for these important, modestly-funded programs which deliver significant value and benefit for all Washington citizens.
